## Make Sprites from Backdrops

### Desert Life

<https://scratch.mit.edu/projects/518309878>

(Click 'See inside'.) This short project illustrates some Game Elements:

- A. 3D Effect with Cactus sprites cut from a bitmap backdrop
- B. the snake's costume 2 is altered from the original library sprite (its head is turned)
- C. Invisible marker sprites to make it easy to code the desert bug to jump from one location to another.
- D. Bug has a 2 costumes (original has only one).
