Fruit Shower

<https://scratch.mit.edu/projects/488289466>

There are three versions of Fruit Shower on this site. Version 1 is the basic version. Version 2 has has a Countdown timer to start. The player has time to pause, take in the game plan and mentally prepare before clicking the Start button. Then there is a Countdown of three seconds to play. Version 3 if for touchscreen devices. Many Scratch games use the keyboard to control the main sprite. This is not suitable for handheld tablets or smartphones. In this version of Fruit Shower the input device to control the main sprite is the touchscreen. Almost impossible to play using a keyboard! The touchscreen version is at <https://scratch.mit.edu/projects/515532410>
